

Switch Adapted Toys

COMPONENT AND TOOL LIST

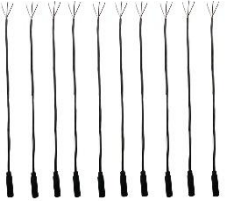

This is a list of commonly used components and tools that are used to switch adapt toys. Most items on this list can be purchased from different manufacturers for various prices. The tools are widely used and can be purchased from most local hardware stores. Note that not every tool and component listed is needed to adapt each toy, refer to the first page of the toy's Maker Guide for more information.

Components

Device Type	Component	Purchase Link	Notes
Mono Jack	3.5 mm Rectangular Mono Jack 	DigiKey Link 	Most used Mono Jack. Solder wires onto the two tabs closest to the cable input. 
	3.5 mm Square Mono Jack 	DigiKey Link 	Solder wires onto the two tabs directly across from each other. 
	22 AWG Wire 	Amazon Link 	Any 22 AWG silicone wire will work.
